

Less but better

In the meaning of colors, it is associated with prestige and wealth. It is seen as a glamorous, sophisticated color related to female energy, prosperity and modernity. Silver restores equilibrium and stability to both feminine power and spiritual energy. It protects itself from outside negativity, reflecting the energy back to where it began. This color is very versatile, being shiny, modern and hi-tech on one hand and alluring, sparkling and elegant on the other.

Warm Neutral

Brown is a natural color that evokes a sense of strength and reliability. It's often seen as solid, much like the earth, and it's a color often associated with resilience, dependability, security, and safety. Brown can also create feelings of loneliness, sadness, and isolation.

Nature Element *colour*

This color is one of trust, responsibility, honesty and loyalty. It is sincere, reserved and quiet, and doesn't like to make a fuss or draw attention. It hates confrontation, and likes to do things in its own way.

The color blue is the color of trust and responsibility
